Reviews

I just started off reading this article pdf. It really is simplistic but shocks in the fifty percent of your ebook. You will not truly feel monotony at at any time of the time (that's what catalogues are for about when you request me).

LANGUAGE AND SOCIETY IN JAPAN

Cambridge University Press, Cambridge, UK, 2005. Paperback. Book Condition: New. First Edition. Language and Society in Japan deals with issues important to an understanding of language in Japan today, among them multilingualism, language and nationalism, and literacy and reading habits. It is organised around the theme of language and identity, in particular how language is used to construct national, international and personal identities. Contrary to popular stereotypes, Japanese is far from the only language used in Japan, and does not function in a vacuum, but comes with its own particular cultural implications. Language has played an important role in Japans cultural and foreign policies, and language issues are intimately connected both with technological advance and with minority group experiences. Nanette Gottlieb is a leading authority in this field. Her book builds on and develops her previous work, and promises to be essential reading for students, scholars, and all those wishing to understand the role played by language in Japanese society. A broad-ranging and accessible introduction to the Japanese language, how it has developed and how it functions within Japanese society Author is one of the few experts in this field, and the book builds on previous research A must-read for students of Japan, sociolinguists and sociologists Contents 1. The Japanese language; 2. Language and diversity in Japan; 3. Language and national identity: evolving views; 4. Language and identity: the policy approach; 5. Writing and reading in Japan; 6. Representation and identity: discriminatory language; 7. Shifting electronic identities; 8. Conclusion. Printed Pages: 179 with 3 figures. Size: 228 x 152 Mm.
