

## The Great Scientists of the World (Paperback)

Filesize: 5.05 MB

### ***Reviews***

*This pdf might be well worth a study, and a lot better than other. It really is simplistic but excitement inside the fifty percent in the book. Its been printed in an exceedingly straightforward way which is just after i finished reading this ebook through which really modified me, modify the way i believe.

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Galileo is called as the father of modern science because of his discoveries in astronomy and physics. He was sent to study medicine by his father, but he chose his career in science and mathematics and made the first telescope to observe stars and planets. He also discovered the law of pendulum as he watched a chandelier swing in the cathedral of Pisa. He also discovered that the surface of moon was not smooth but contained burrows and holes to what he called crater. He also discovered 4 revolving moons around Jupiter which are named after him. He proved what Copernicus said about sun being the center of the solar system. Galileo became blind in his old days and died in the year 1642. Galileo Galilei was an Italian natural philosopher, astronomer, and mathematician who made fundamental contributions to the sciences of motion, astronomy, and strength of materials and to the development of the scientific method. His formulation of (circular) inertia, the law of falling bodies, and parabolic trajectories marked the beginning of a fundamental change in the study of motion. His insistence that the book of nature was written in the language of mathematics changed natural philosophy from a verbal, qualitative account to a mathematical one in which experimentation became a recognized method for discovering the facts of nature. Finally, his discoveries with the telescope revolutionized astronomy and paved the way for the acceptance of the Copernican heliocentric system, but his advocacy of that system eventually resulted in an Inquisition process against him. Telescopic Discoveries In the spring of 1609 Galileo heard that in the Netherlands an instrument had been invented that showed distant things as though...
